Prince of Persia features open world exploration that allows the player to travel to any spot in the game world at any given point, and allows the player to witness the plot in any way they want.. The player can use acrobatic maneuvers to avoid these traps Prince of Persia (2008) Free Download PC Game.. Gameplay Prince of Persia revolves around gameplay mechanics that producer Ben Mattes identifies as «pillars» of the Prince of Persia series; an acrobatic hero exploring a Persian environment with a balanced mixture of acrobatics, combat, and puzzle-solving.. Along with saving the player, Elika can perform many acrobatic feats or combat feats in tandem with the player.. The player can not conventionally «die» in Prince of Persia Rather, when an enemy is about to strike the finishing blow, or The Prince presumably falls to his death, Elika saves him.. However, when the player heals a spot of land, it becomes devoid of traps The traps are manifested in various forms of the antagonist Ahriman's Corruption; black-colored blobs that coat the land and swallow the player if touched.. Depending on how the player progresses, previously visited areas will become more challenging to traverse when the player re-visits them. e10c415e6f
